

## **The Bioenergy Life Center brings the Domancic Method of Bioenergy Therapy to London**

**London --- October 10, 2011 ---** The Bioenergy Life Center offers Bioenergy healing events, individual treatments and certified training in the Domancic Method of Bioenergy therapy, a non-invasive, non-medical, safe and effective approach to promoting health - using LIFE itself. The Center, also in the USA, will now sponsor the opportunity in London to experience all the aspects of the authentic Domancic Method of Bioenergy.

**Zoran Hochstatter**, the only official teacher and representative of the Domancic method in the English-speaking world, has created the Bioenergy Life center as the UK/USA sister center of the highly successful Zdenko Domancic Bioenergy Clinic in Europe (the largest of its kind in the world with a waiting list of up to 6 months) where, for over 35 years, the therapy has helped over a million people by optimizing the body's self-healing potential. The Domancic Method is the source of most bioenergy healing in the UK. For those new to the Method, the documentary [THINK ABOUT IT](#), gives a great insight to the effects of Bioenergy Healing and features the Domancic Method along with cutting edge scientist like Dean Radin from the Insititute of Noetic Sciences (IONS)

So, what makes bioenergy so effective? "The information of health is contained in this energy...making every illness curable" explains Zdenko Domancic, the method's creator. In fact, one of the method's fortes is to improve health conditions that are deemed incurable by traditional medicine (i.e. Autism, **Parkinson's**, MS, Lyme disease, Fibromyalgia, Stroke, Depressions, Chronic Pain) without the debilitating side effects or the burden of extreme medical costs.

"I saw a definite improvement in my tremor. I have Parkinson's and the tremor is one of the things that the medication I've been on has not helped me with." states a client.  
(watch a VIDEO about the LA event)

On the other side of the coin, the method is also highly effective in disease prevention, as its boosts the immune system. It quickens injury recovery, reduces stage fright and improves peak performance, which is essential for athletes, dancers, actors, executives etc. Bioenergy therapy is for everyone and anyone seeking optimal health and **well-being**.

The method can be done in private sessions and at a distance but is traditionally done in a group setting. One of the added benefits of receiving therapy in a group is that participants are able to witness the healing of others while experiencing their own results.

"One of the most important experiences we had here was to witness other people getting better and this is like a miracle," reports a participant from the 2009 Los Angeles Bioenergy healing event.

Besides therapy, the Bioenergy Life Center also offers all levels of practical training to become certified practitioners or to help family and friends - making it the only way you can learn the Domancic method in the UK.

This non medical treatment is notably one of the most structured, most direct and most effective healing modalities in use today with a results-driven philosophy and the recorded documentation to prove it, as can be seen on the center's websites – [www.bioenergylifecenter.com](http://www.bioenergylifecenter.com) and [www.healingbioenergy.com](http://www.healingbioenergy.com)

Meet Zoran Hochstatter at Camexpo (stand 2115) where The Bioenergy Life Center (Healing Bioenergy) will be giving demos of the Domancic Method and information about the next Healing events and training seminars in London.
